CAREER OBJECTIVE

Computer Science Engineering student (CGPA 8.82/10) specializing in Full Stack Development, with hands-on experience in React, JavaScript, Python, Firebase, and REST APIs. Experienced in building and deploying web applications through internships, research, and freelance projects. Seeking a Full Stack Developer / Software Engineer role.

EXPERIENCE

Full Stack Development Intern | *Error Makes Clever*

Mar 2026 – Jun 2026

- Developed and enhanced Java-based backend modules, integrating them with frontend components.
- Optimized existing code to improve application reliability and execution efficiency.
- Collaborated across the Software Development Lifecycle (SDLC), using Git for version control and code reviews.
- Resolved 20+ logic and functional bugs during testing, contributing to reliable application deployments.

Research Intern | *NIT Trichy*

Jun 2026

- Contributed to research on Multi-Agent Path Finding (MAPF), implementing and benchmarking A*, Multi-Robot A*, and Conflict-Based Search (CBS) algorithms.
- Built Python/Pygame simulation and visualization tools to evaluate pathfinding performance across multi-robot scenarios.

Freelance Web Developer | *Bharani Bhavan Veg Restaurant, Mathur, Tiruchirappalli*

Jun 2026 – Present

- Designed, developed, and deployed a multi-page production website for a live restaurant client, featuring menu categories, image lightbox, and dish-detail sections.
- Sourced and integrated optimized food photography; built a responsive, mobile-first layout.

TECHNICAL SKILLS

- Languages: Java, Python, SQL (MySQL), JavaScript
- Frontend: React.js, HTML5, CSS3, Vite, Responsive Web Design
- Backend: Firebase (Auth, Firestore), Node.js (Basics), REST APIs
- Tools & Platforms: Git, GitHub, VS Code, Figma, Vercel, Netlify
- Core Competencies: Data Structures & Algorithms (DSA), DBMS, OOP, Operating Systems, SDLC
- Keywords: Full Stack Development, Web Application Development, API Integration, Agile, Version Control, Debugging, Cloud Database, UI/UX

PROJECTS

Bharani Bhavan Restaurant Website | *React / HTML / CSS*

- Designed, developed, and deployed a production website for a live restaurant client, featuring menu categories, gallery, responsive navigation, and dish details.

React Movie App | *React, TMDB API integration, Vercel/Netlify*

- Developed and deployed a React-based movie discovery application using the TMDB API, with dynamic search, filtering, and movie browsing.

Multi-Agent Pathfinding Research Tool | *Python, Pygame*

- Implemented A*, Multi-Robot A*, and Conflict-Based Search (CBS) algorithms with real-time Pygame visualization for multi-robot pathfinding research.

Swiggy Food Delivery App – UI/UX Case Study | *Figma*

- Architected a mobile UI with user flows, wireframes, and high-fidelity prototypes following accessibility and mobile-first standards.

EDUCATION

B.E. in Computer Science & Engineering | *Care College of Engineering*

2023 – 2027

- CGPA: 8.82 / 10.0 (Current)

CERTIFICATIONS

- Computer Networks & Internet Protocols – NPTEL (Elite Silver)
- Data Structures & Algorithms using Java – NPTEL
- UI/UX Design Specialist – Novitech Pvt Ltd
- Database Management Systems – NPTEL
